ELECTION WITH TRAVERSE

Commissioner for Patents
U.S. Patent and Trademark Office
Customer Service Window, Mail Stop AMENDMENT

Sir :

In response to the Examiner's restriction requirement of February 21, 2006, the time set for response being one month from the mailing date from the U.S. Patent and Trademark Office, *i.e.*, March 21, 2006, Applicants hereby elect the invention of Group III, including claims 8-17. The above election is made with traverse for the reasons set forth hereinbelow.

In the Official Action of February 21, 2006, the Examiner indicated that claims 1-17 were subject to restriction under 35 U.S.C. § 121. The Examiner restricted the claimed invention into Group I, including claims 1-5, drawn to a method, classified in class 216, subclass 2+; Group II, including claims 6-7, drawn to an apparatus, classified in class 156, subclass 345+; and Group III, including claims 8-17, drawn to a product, classified in class 332, subclass 1+.

The Examiner asserted that the inventions of Groups I and III were related as process of making and product made, and that the inventions are distinct from each other under M.P.E.P. § 806.05(f) because “the product can be made by a different method such as by using selective deposition instead of etching.”

The Examiner also asserted that the inventions of Groups I and II were related as process and apparatus for its practice, and that the inventions are distinct from each other under MPEP §806.05(e) because “the apparatus can be used to practice a different process such as making a different device, for example an ink jet printhead or a semiconductor device.”

Applicants respectfully traverse the Examiner’s restriction requirement. Initially, Applicants note that elected claims 8-17 depend (directly or indirectly) from independent claim 1, which is included in non-elected group I.

While the Examiner has alleged a possible distinction between the three identified groups of the invention, the Examiner has not shown that a concurrent examination of these groups would present a “serious burden” on the Examiner.

Applicants respectfully submit that the Examiner has further failed to provide an “appropriate explanation” of any such burden, as set forth in M.P.E.P. § 803. That is, according to M.P.E.P. § 803, “an appropriate explanation” must be advanced by the Examiner as to the existence of a “serious burden” if the restriction requirement were not required.

Thus, Applicants submit that no undue or serious burden would be presented in concurrently examining Groups I, II and III. Therefore, consistent with the office policy set forth in M.P.E.P. § 803, Applicants respectfully request

P25117.A06

that the Examiner reconsider and withdraw the restriction requirement in this application.

For all of the above reasons, the Examiner's restriction is believed to be improper. Nevertheless, Applicants have elected, with traverse, the invention defined by Group III, in the event that the Examiner chooses not to reconsider and withdraw the restriction requirement.

STATEMENT OF SUBSTANCE OF INTERVIEW

Further to a telephonic interview between the Examiner and Applicants' Representative, Attorney William Boshnick, the Examiner indicated that in view of the Preliminary Amendment filed concurrently with the present application which was not considered by the Examiner in the Restriction Requirement of January 16, 2006, a new Restriction Requirement (*i.e.*, the present outstanding Restriction Requirement) would be forthcoming. Applicants appreciate the Examiner's consideration in this regard

Should there be any questions or comments, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully Submitted,
Eiju KOMURO et al.
